## MEANS OF CONTROL

We'll check with the raw materials from our supplier, and will perform PH test on raw material one month one time. When the gloves are still half finished, we measure the weight by per dozen, if there are some gloves not fit the standard, then will reject it and reproduce. We will exam to see the smoothness and flatness of the gloves' surface, and do viscosity tests and length tests. We are strict testing then ensure the quality. After finished everything, we start to production and following the samples. We will ask our QC to check the gloves in standard, if anything is not confirm with the samples, we'll reproduce then check by QC again. At last after all is OK then shipment. Meanwhile we'll trace up our goods after customers received.
